

BRAND BOOK · V1 · 2026

A family's love, served in a bowl. The single source of truth for how Pho Love looks, sounds, and shows up — from the sign on the door to the next Instagram post.

Don't

THE FULL MENU

Warm, loving, family-first

First person — "our broth," "my dad." Casual and honest, never corporate or salesy. The same voice already on the Instagram, held to consistently.

Sounds like

- ✓ "10+ hours of love in every bowl."
- ✓ "Come hungry, leave family."
- ✓ "Made with love, served with more."

Not like

- ✗ "An authentic culinary experience."
- ✗ Corporate or hype language
- ✗ Chain-restaurant speak

Steam, herbs, and family

Warm, natural-light food photography — close, steamy, appetizing. The bowl, the broth pour, the herbs, the chopstick lift, and real moments of the family and the room. Never cold or clinical.

Do

- ✓ Real dishes in warm natural light
- ✓ Hands, steam, the broth pour, herbs
- ✓ The family and the room — genuine

Don't

- ✗ Cold, blue, or heavily filtered photos
- ✗ Generic stock that isn't Pho Love's

The thread through everything

The heart shows up in the logo bowl, in "Made with Love," in the "♥" they sign off with. Make it the connective tissue — a divider, a bullet, a stamp on the to-go bag.

♥ Heart bullets in menus ♥ Section dividers ♥ "Made with love" stamp

Buttons and surfaces

Pills only, never sharp rectangles. The gradient is the primary button, ink the secondary, outline the quiet third.

SURFACE	USE
Cream	Default page & section background
White card · ash border · pill radius	Menu cards, info cards, panels
Maroon	Deep section (story), footer accents
Gradient	Hero and one key CTA band — sparingly
