

BRAND GUIDELINES

Do it
pho love.

Visual identity & voice · Pho Love · Altoona, PA

01 Brand essence

A family's love, served in a bowl. Pho Love is warm, heartfelt, and unpretentious — a father's recipe, a son's homecoming, food made with love. The heart isn't decoration. It's the brand.

02 Logo

The primary lockup is the bowl-and-heart mark with the wordmark and "Vietnamese Restaurant." Use the full-color version on light surfaces and the reversed version on dark or photographic backgrounds.

Primary · on light / cream

Reversed · on ink / dark

Submark · profile pic, favicon, to-go stamp

Do

- ✓ Keep clear space around the logo — at least the height of the bowl
- ✓ Use the reversed version on dark or busy backgrounds
- ✓ Scale the whole lockup proportionally
- ✓ Let the gradient and the heart lead the brand

Don't

- ✗ Stretch, squash, or rotate the logo
- ✗ Recolor the bowl or drop the heart
- ✗ Place the dark logo on a dark or red background
- ✗ Add shadows, outlines, or effects

03 Color

Coral and pink are the warmth; the gradient is the signature — use it with restraint. Cream and ink carry most of the layout. One accent per view, never a rainbow.

Pairings: ink text on cream · white text on coral, maroon, or the gradient · coral for links and small accents. One accent per layout — never a rainbow.

04 Typography

The wordmark uses a hand-brushed script (built into the logo). For everything else, a friendly two-font system.

Accent script — the wordmark voice

Do it pho love.

For the wordmark and the occasional warm flourish. Never for body copy.

05 The heart motif

The heart shows up in the logo bowl, in "Made with Love," in the "<3" they sign off with. Make it the thread that ties everything together — a divider, a bullet, a stamp on the to-go bag.
